Notice of Allowability

Allowable Subject Matter

1. Claims 1-4, 7-11, 14, 15, and 17 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1, 8, and 15 are directed to a method and corresponding apparatus for halftone frequency estimation. Claims 1, 8, and 15 identify the uniquely distinct features of subtracting a frequency signal from the image data signal to produce the frequency measurement signal. The closest prior art Schweid (US 6734991 B1) teaches a method for estimating screen frequency, but either singularly or in combination with other cited references fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
